

Suraj Neupane

IT Professional | Web & App Developer

Aichi-Ken, Nagoya-Shi, Nakamura-Ku, Japan | suraznpx@gmail.com | +81-804871-14XX

Career Objective

- Motivated and detail-oriented IT student with expertise in software development, web applications, and hardware integration. Seeking a challenging position in IT or software development where I can utilize my skills, continue learning, and contribute to company growth.

Education

- Diploma in IT | Nagoya Technical Future College, Japan (2022 - 2024)
- Japanese Language Course | Nagoya Academy of Education, Japan (2020 - 2022) - JLPT N2 Certification
- High School | Bhrikuti Model Academy, Nepal (Graduated: 2019)

Technical Skills

- Programming Languages: Python, Kotlin, VBA, Java, HTML/CSS, JavaScript
- Tools & Technologies: Android Studio, Visual Basic, M5Stack, Git, MS Office Suite
- Web Development: HTML/CSS-based Typing Test Application
- Software Development: Android quiz game app, iOS student request app
- Hardware Integration: MPU6050 accelerometer and gyroscope with M5Stack
- Database Management: CSV handling, simple database implementation

Professional Projects

- Typing Test Application Website: Developed a responsive web-based typing test for international students.
- Android Quiz Game Application: Created a quiz APK with multiple-choice questions, timers, and scoring using Kotlin.
- M5Stack Temperature Display System: Developed a temperature monitoring system using an LM61BIZ sensor.
- VBA-Based POS System: Visual Basic application for a menu management system integrated with CSV.
